ALL AGREEMENT STATES, MINNESOTA, PENNSYLVANIA

TRAINING COURSE LIST FOR FISCAL YEAR 2005 (STP-04-075)

The Nuclear Regulatory Commission (NRC) staff has updated the list of courses for fiscal year 2005 that directly relate to the Agreement State programs (Enclosure 1). The list includes the tuition costs for those courses taught by contractors. The State is responsible for the travel and per diem expenses and tuition costs, as listed, if they wish to reserve a space in a specific course. Otherwise, State staff may attend on a space available basis. If no designation is noted on the application form, we will consider the application as a space available application.

We have also enclosed the standard application form (Enclosure 2). Please complete the application form for each person attending a course and submit it to the Office of State and Tribal Programs (STP), ATTN: Brenda Usilton. Applications may be submitted at any time; however, applications should be received by STP a minimum of at least eight (8) weeks prior to the beginning of the course. The decision to hold or cancel the course will be made at that time. Applications received after the eight week deadline will be considered if there is a cancellation by one of the students selected. This will be the case for paying applicants as well as space available applicants.

The complete list of all technical training courses can be viewed on the STP Home Page under Technical Training. If there is a "TBD" listed beside a course that means no date has been established. As dates for these courses are established, we will post them under the "What's New" area on our Home Page. Other changes to the course schedule will also be noted on the "What's New" area of the Home Page. Changes to technical training courses will also be made on the individual course descriptions and schedules.

TBD* = either new contract being negotiated or dates/location not yet established

NOTE: Each course has a minimum and maximum enrollment. Students are enrolled in a course in the order in which they register. If more than the maximum register for a course, the excess are placed on a wait list and added in sequence as registrants cancel. Registrants on the wait list are not automatically carried over to the next course. If you do not get into a course, you must re-register for a future course. If the backlog is significant, and, resources and funding are available, it may be possible to schedule another session. Conversely, if fewer than the minimum number are registered for a course, six weeks before the course start date, the course will be canceled.
