Supplementary Information: This is to inform you that the Nuclear Regulatory Commission (NRC) will be holding a Workshop on Sealed Source and Device Evaluations. The workshop will be held on August 24-27, 1998 at NRC Headquarters in the Two White Flint North Auditorium, Rockville, Maryland. There will be no tuition costs for this workshop. The State is responsible for the travel and per diem expenses.

We have enclosed the standard application form (Enclosure). Please complete the application form for each person attending a course and submit it to the OSP contact on the list. Applications may be submitted at any time; however, applications should be received by OSP at least eight (8) weeks prior to the beginning of the course. The decision to hold or cancel the course will be made at that time.

Enclosed, for your information, is a copy of the schedule for this year's workshop.

The 1998 Sealed Source and Device workshop will be similar in content and format to the workshops in the past. The workshop is intended to provide in-depth explanation of the process for evaluating sealed source and device designs for licensing and to offer guidance for regulatory staff performing such evaluations. This year the workshop will run for 4 days (August 24-27) from 8:00 to 4:30. The following subjects are planned to be covered:

- Types of Devices and Sources - Slide presentation
- The Certificate
- Servicing and Maintenance
- Radiation Profiles
- Quality Assurance and Quality Control
- Prototype Testing and Historical Use Criteria
- Root Cause Analysis
- Lessons Learned From Incidents
- New Technologies
- Vendor Perspective - Guest Lecturer(s)
- Practice Casework
- General Engineering Principles
- Blueprint Reading

In addition, participants will be given exclusive time by the workshop team for questions and comments.
